

## Participatory Budgeting Program Update

The projects submitted to our initial program are now being evaluated by the Borough's professionals. They will determine if the projects meet the program requirements, and they will develop a cost estimate for each accepted project.

When their work is complete, we will:

- (1) Hold a town hall meeting to allow those who submitted the accepted projects to make a presentation to the residents in order to promote their project.
- (2) The ballot will be prepared for both online and paper ballots
- (3) The period for voting will be made public, and
- (4) The announcements of the winners will be made.

The Innovation Committee members thank you for your interest in this program and your patience as we go through these final steps.

Councilman Ron Griffiths

Liaison to the Innovation Committee
