**In our perpetual quest to be of help to our patrons, we share these Thanksgiving turkey cooking instructions (written by kindergarteners):**

- You buy the turkey and take the paper off. Then you put it in the refrigerator and take it back out and cut it with a knife and make sure all the wires are out and take out the neck and heart. Then you put it in a big pan and cook it for half an hour at 80 degrees. Then you invite people over and eat.
- You cut it into 16 pieces and then you leave it in the oven for 15 minutes and 4 degrees. You take it out and let it cool and then after 5 minutes, you eat it.
- First you find a turkey and kill it. Cut it open. Put it in a pan. Pour milk in the pan. Put a little chicken with it. Put salsa on it. Take out of pan. Put it on the board. Cut into little pieces. Put on a rack. Put in the oven for 7 minutes at 10 degrees. Take out of the oven and put eensy weensy bit of sugar on it. Put a little more salsa on it. Then you eat it.
- Put it on a plate and put it in the oven with gravy. You cook it for 1 minute and for 100 degrees. Then it's all cooked. Your mom or dad cuts it and then eat.
- First you cut the bones out. Then you put it in the oven for 10 hours at 600 degrees. Then you put it on the table and eat it.
- You cut and put sauce on it. Then you cook it for 18 minutes at 19 degrees. Then you eat it with stuffing.
- First you shoot it and then you cut it. And then you put it in the oven and cook it for 10 minutes and 20 degrees. You put it on plates and then you eat it.

**Greetings from Toddler Time!**

"Children read to learn—even when they are reading fantasy, nonsense, light verse, comics or the copy on cereal packets, they are expanding their minds all the time, enlarging their vocabulary, making discoveries: it is all new to them."

*November* comes from the Latin *novem*, which means *nine*, as it was the ninth month until January and February were added to the calendar.
